EDUCATION

B.tech, KIET group of institutions

2021 – 2025 | Kakinada, India

Relevant courses : Networking, Operating systems, Data structures, Analysis of Algorithms, Databases, Statistics, Machine learning.

SKILLS

Languages: Python, Java, C, SQL, Javascript, HTML, CSS

Frameworks: Django, Flask, Express.js, React.js

Databases: MySQL, MongoDB, SQLite

Cloud Platforms: AWS, Google Cloud Platform, Azure

Version Control: Git, GitHub, GitLab

PROFESSIONAL EXPERIENCE

Web Developer Intern, Eduskills

Oct 2024 – Dec 2024 | India

- Developed and maintained responsive web applications using **MongoDB, Express.js, React.js, and Node.js (MERN stack)**.
- Integrated **authentication & authorization** using JWT and OAuth for secure user access.
- Collaborated with a team using **Git, Agile methodologies, and CI/CD pipelines** for efficient development and deployment

Summer Internship | IIIT Hyderabad

Apr 2023 – Jun 2023 | Hyderabad, India

Flight Booking Platform Development | Flask & Web Technologies

During my summer internship at IIIT Hyderabad, I worked on developing a **website-based Flight Booking Platform** using **Flask** as the backend framework. I was responsible for designing and implementing key functionalities such as **user authentication, flight search, booking system, and payment integration**.

PROJECTS

Food E-Commerce Platform 📄

Food delivery platform with secure payments, real-time order tracking, and restaurant management. (*React, Node.js, MongoDB, Stripe API*)

Developer Networking Platform 📄

Professional networking for developers to connect, collaborate, and share projects. (*React, Node.js, MongoDB, WebSockets*)

Fake Job Detection (NLP) 📄

ML-powered job scam detector analyzing job postings for authenticity. (*React, Python, ML, PostgreSQL*)

CERTIFICATES

Foundations Of Model Machine Learning

Issued By IIITH

Python

Issued By Ineuron

NLP AI-THON
